SUMMARY:

Full Stack Software Engineer with hands-on experience developing web applications using React and Node.js. Proficient in building RESTful APIs, implementing authentication (JWT, RBAC), and working with databases like PostgreSQL. Strong problem-solving skills and a solid foundation in JavaScript, with a passion for building efficient and user-centric applications. Familiar with version control, debugging, and writing clean, maintainable code following best practices.

EDUCATION:

Institute of Technical Education Research, SOA University, 11/2020 – 07/2024 | Bhubaneswar, India
B. TECH in Computer Science and Engineering
Mark Secured – 7.26

Jupiter Science Higher Secondary School, Class 12th CHSE Boards 05/2018 – 08/2020 | Bhubaneswar, India
Mark Secured – 80.33%

PROFESSIONAL EXPERIENCE:

Appman Technologies Pvt. Ltd., Software Engineer 05/2025 – Present | Bhubaneswar, India

- Developed and maintained enterprise-level web applications using React, implementing responsive UI components with HTML5, CSS3, and JavaScript ES6+ and applying user interface design principles to ensure cross-browser compatibility and optimal user experience.
- Built and integrated RESTful APIs using .NET and Node.js, designing scalable backend services with SQL and PostgreSQL databases, implementing secure authentication mechanisms and optimizing queries to improve application performance by 30%.
- Collaborated in Agile development environment using Git for version control, Docker for containerization, and Postman for API testing, ensuring code quality through peer reviews and maintaining comprehensive technical documentation.

Appman Technologies Pvt. Ltd., Web Developer Intern 12/2024 – 05/2025 | Bhubaneswar, India

- Built responsive web interfaces using React, HTML5, CSS3, and JavaScript, assisted in developing RESTful APIs, and integrated frontend components with backend services using Git and Postman for version control and API testing.

SKILLS:

Programming Languages — JavaScript (ES6+), C#, SQL | **Frontend & Frameworks** — HTML5, CSS3, React, Tailwind CSS, React Router, React Hook Form, Redux, Material UI, Responsive Web Design | **Backend & APIs** — Node.js, Appwrite, RESTful API Development, API Integration, NPM, JWT Authentication, RBAC, OAuth | **Database** — SQL Server, PostgreSQL, Query Optimization, Data Modeling | **DevOps & Tools** — Git, GitHub, Docker, Azure DevOps, Postman, Agile/Scrum

PROJECTS:

OTDC – Property Management System (PMS)

- Architected a full stack Property Management System using React (Admin Console) and Angular, enabling multi-property management, room inventory tracking, user role administration, and end-to-end booking workflow automation.
- Implemented secure authentication and authorization using Node.js with JWT tokens and RBAC, building a multi-tenant architecture to support concurrent management of multiple hotel properties.
- Designed and optimized PostgreSQL schema with complex relational models for properties, users, bookings, and payments; reduced query execution time by 40% through targeted indexing and stored procedures.

Restaurant Management System (RMS)

- Built a real-time restaurant operations platform with React featuring dynamic menu management, order processing, kitchen display integration, and table reservations using reactive programming patterns.
- Developed RESTful APIs using Node.js to manage order lifecycle, inventory tracking, and sales analytics, implementing real-time notifications between kitchen and service staff to improve operational efficiency.
- Integrated secure payment gateway and automated SSRS sales reports, providing actionable insights on daily revenue, inventory turnover, and performance optimization.

ACHIEVEMENTS:

- Completed the Web development course from Pre-Grad in Dec '22 - Mar '23 [Certificate] 🔗
- Completing Bootcamp on Front-end web development from Dev-town in Jul '22 – Aug '22 [Certificate] 🔗
- Attended the Competitive Coding Workshop conducted by Coding Ninja, Odisha, India, April 2021
- Worked as a Member at Robotics Club, ITER College, Siksha 'O' Anusandhan University, Odisha, India, Sep'20- Aug'22
